

McKnight's

FALL ONLINE EXPO

SCHEDULE

September 9, 2015

SESSION 1 / 11:00 A.M. ET: QUALITY TRACK

LETTING THEM GO WITH STYLE

LTC organizations regularly lose employees for a variety of reasons. This webinar will focus on ways to use the loss of an employee to strengthen your organization and to create a culture that is more likely to retain staff.

SPEAKER: ELEANOR FELDMAN BARBERA, PH.D.

SESSION 2 – 12:30 P. M. ET: PAYMENT TRACK

THE NEW FACE OF MEDICARE REIMBURSEMENT

Although we saw many changes in Medicare reimbursement in the past, the last year has been relatively quiet but not anymore. Get ready for major changes in 2016 – 2018. This workshop will dive into the upcoming anticipated changes. We will review areas including re-hospitalization measures, the Impact Act of 2014 and its impact on you, initiatives for Medicare Shared Savings, Electronic Health records, and new staffing submission requirement.

SPEAKER: PATRICIA J. BOYER, MSM, RN, NHA

SESSION 3 – 2:00 P.M. ET: TECHNOLOGY TRACK

ASSESSING THE IMPACT OF TECHNOLOGY ON QUALITY IN NURSING HOMES

As long-term care providers are pushed to improve quality, a burning question looms: What role does technology play? University of Missouri Sinclair School of Nursing professor Gregory Alexander, Ph.D., will inform participants about how resident care management, clinical support and integration are the triangle of IT sophistication in nursing homes. Attendees will learn how to look at IT variables and learn about a study examining differences in long-term care based on factors such as region or size. They will be able to come away with an understanding of nursing home quality measures and the role of IT sophistication.

SPEAKER: GREGORY L. ALEXANDER, PH.D.
